GLEICHEN, ALBERTA, WEDNESDAY JULY 30, 1952

SUBSCRIPTION \$2.00 PER YEAR

Town Council Held Meeting

At the last meeting of the town council Mayor Colpoys and Councillors H. Hunter, R. Wilson, U. Jones, F. Michael, S. Hampton and E. Bollinger were present.

The minutes of the special meeting held on June 12 and the regular meeting held on July were read and adopted on motion of Councillor Hunter.

The police contract for 1952 and 1953 was discussed and it was decided to sign the contract on motion of H. Colpoys.

The report of the R.C.M.P. for the month was read and accepted.

U. A. Jones carried a motion that the Court of Revision sit on August 4 at 8 p.m. in the town hall and that the following councillors constitute the Board: H. Colpoys, U. Jones, R. Wilson, R. Hunter and F. Michael.

It was decided that the town will undertake the cleaning of the disposal tank when necessary.

Councillor Michael moved that the real estate committee carry out a more aggressive policy with regard to the town's weeds and grass cut in the park, the town hall grounds and the roads.

A letter from Inspector Ramay regarding the Canadian Fire Insurance was read and it was moved by Michael and Hunter and carried that the town through its lawyers start suit to collect arrears of taxes from W. Phyllis's bonding company, the Canadian Fire Insurance Co.

The question of transients came up. Transients traders must not be charged a license but should be included in business tax. This was tabled until the next meeting.

The secretary's financial statements for the months of May and June were read and accepted on the motion of Councillor Michael.

The secretary was instructed to write by registered letter to Steel Crafts to the effect that if the town contract is not completed within thirty days to the satisfaction of all parties concerned the town will employ others to complete the work and charge the cost against the bid.

The council decided to buy one BA-8 Henry Backhoe with 24 inch bucket, one 141 B.H. shovel loader, a standard bulldozer attachment and a tractor at a total cost of \$5,432.00.

On motion of Councillor Hampton the meeting adjourned.

George E. Dell, Social Credit, the pretentious man of the provincial house seeking re-election on August 5th.

area. Cities use the proportional representation, where ballots may be cast for several members of a party.

In addition to marking an X instead of numbers, there are other variations which may spoil a ballot. Only numbers should be marked on a ballot, and even if the voter marks 1st, 2nd, 3rd, instead of 1, 2, 3, the ballot will be spoiled. Another mistake is in not marking the correct rotation numbers. Choices must start from 1 and be marked in order. If a voter mixes a number or marks it with a 1, the ballot will be spoiled.

United Church Make Presentation

After the United Church service Sunday evening the congregation went to the home of Mr. and Mrs. E. Taylor's for coffee and donuts which was served on their lawn. A fire in the out side fire place and electric lights made an appropriate setting for the occasion. After a sing-song coffee was served. Edgar was presented with a pen and pencil set by Rev. Mr. Morrison, from the church congregation for faithful service rendered. Mrs. W. M. Bollinger on behalf of the United Church Women's Association presented Mrs. Taylor with a beautiful pen and saucer.

Edgar and Mrs. Taylor thanked their friends in a very pleasing manner for their gifts.

A pleasant evening ended by playing Mr. and Mrs. Taylor and Edgar in the centre and their friends singing. Auld Lang Syne and They Are Justly Good Fellows.

Mr. and Mrs. Taylor came to Calgary in 1910 from Wallace, Idaho and to Gleichen in 1912. Mr. Taylor was responsible for the apple's aromatic flavor—no mean feat considering that the fruit's flavoring matter represents only 50 parts per million of the original juice. Chemists have developed a syrup that is not only good for table use but which is used in coated paper, cosmetics, tooth paste, tobacco and in milk products for infant feeding. They've recently developed a high density apple juice concentrate that will keep a whole year without being frozen.

Mr. Brown father of Mrs. Murdoch was taken seriously ill one day last week and is at present in Belcher hospital.

Three Candidates Seeking Election

Three candidates will contest the Gleichen riding in the provincial election on August 5th. They represent Social Credit, Liberal and C.C.F. George E. Dell who has held the seat for several terms is seeking re-election. Charles County of Rockyford is the Liberal candidate and Aubrey E. Gibson, station agent of Langdon is running as C.C.F. candidate.

The apple is becoming as versatile as the soybean or peanut—thanks to chemistry. Chemists have taken this one day keeps the doctors away" fruit and have discovered exactly what makes it "tick." After laborious experiments, they've found for instance that 20 different compounds were responsible for the apple's aromatic flavor—no mean feat considering that the fruit's flavoring matter represents only 50 parts per million of the original juice. Chemists have developed a syrup that is not only good for table use but which is used in coated paper, cosmetics, tooth paste, tobacco and in milk products for infant feeding. They've recently developed a high density apple juice concentrate that will keep a whole year without being frozen.

I advocate Gas through the pipes at 25c a gallon and the equivalent to the farmer.

They say it is our oil

Mr. And Mrs. Cook 50 Years Married

Mr. and Mrs. W. A. Cook, who have been residents of the district for the past 28 years celebrated their 50th wedding anniversary at their home on July 18th.

Present for the family dinner were 9-10 daughters and families: Mr. and Mrs. H. E. James, Barbara and Gordon of Black Diamond; Mrs. Jack Deporter of Los Angeles and Mr. and Mrs. Douglas Henderson, Stuart and Scott of Lethbridge. Mr. Cook's youngest sister, Mrs. Wm. Lemmie and niece Mrs. A. Williams of New York. Mr. and Mrs. R. W. Brown of Calgary and Mr. Tom Bates of Gleichen were present. Their son Major J. A. Cook of Kingston, Ont. was unable to be present.

The table was beautifully decorated with flowers and a lovely three-tier wedding cake. Also a wedding cake a present from Mrs. Cook's bride's maid of 50 years ago from Scotland.

Many telegrams and cards of congratulations were received. In the afternoon open house was held to which more than a hundred friends called to offer their best wishes and congratulations.

The community presented Mr. and Mrs. Cook with a pair of chairs, end table and a smoking set.

Music Exam. Results

Results of successful students of Mrs. Blanche Robinson passing their piano examinations were:

Western Board of Music:
Grade III—Honors—Jeanne Beaudin.

Grade VI—Pass—Jeanne Beaudin.

Royal Conservatory of Music:
Grade I—Honors—Beverly Bogstie.

Grade V—Pass—William Hansen.
Grade VI—Pass—Marion Robinson.

Mr. and Mrs. Doug Young of Detroit arrived in town last week to visit his mother Mrs. J. Young and sister Mrs. Tom Brown.

Mr. and Mrs. A. Bain has as their guests over the week end Mrs. Bain's father, E. D. York and her sister Miss B. York of Edmonton, also her aunt and uncle, Mr. and Mrs. Creig of Mesart, Ontario.

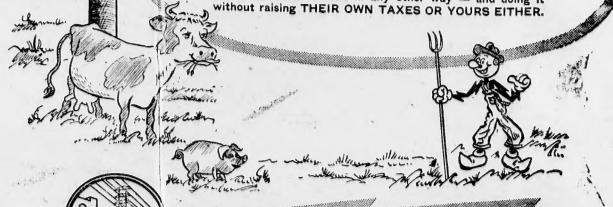

Misses Louise and Yvonne Woods of Donalds are spending a few weeks in town visiting their grandmother Mrs. E. Woods.

Mr. and Mrs. Harvey Bogstie and family left Thursday for Winnipeg to spend a holiday and to visit Mrs. Bogstie's parents.

What You Should Know About Rural Electrification in Alberta

- Q. How much would it cost to electrify all the farms in Alberta?
- A. It is estimated it would cost possibly 200 million dollars, or more than twice the present total provincial debt.
- Q. Who would actually pay for so-called "FREE" electrification of the farms?
- A. Everybody would have to pay. The government would have to borrow the hundreds of millions of dollars required; and repay it plus interest by increasing everybody's tax bill — including yours.
- Q. Who pays the cost of farm electrification today?
- A. Only the farmers who want electricity. They pay for it only when they get it.
- Q. Are Alberta farmers getting rural electrification today as cheaply as possible?
- A. Yes, they are getting it at cost.
- Q. Are Alberta farmers getting rural electrification today as quickly as possible?
- A. Yes. Rural electrification is going ahead in Alberta at a rapid pace — as fast as man-power and materials will permit. For instance, the Power Companies in Alberta purchased every pole which was available from all suppliers everywhere last year for farm electrification. This year, every pound of wire to which Alberta was entitled, by allotment from the Steel Controller for farm electrification, has been purchased.

Under the Rural Electrification Co-Operative Association plan, operating in Alberta today, the farmers are HELPING THEMSELVES to Farm Electrification — by the thousands each year. By helping themselves they are doing it at lower cost than could be done in any other way — and doing it without raising THEIR OWN TAXES OR YOURS EITHER.

CALGARY POWER LTD.
SERVING ALBERTA

OBITUARY

MRS. MAY E. TOWER

Mrs. May Elizabeth Tower, mother of Richard W. (Dick) and Clifford A. of Gleichen, died suddenly in her home in Calgary Sunday at the age of 64 years.

Mrs. Tower was born in Towner, North Dakota and as a baby moved to Chesholm. In 1914 she moved to Gleichen and had lived here between and Calgary since. She was a member of the Ladies Auxiliary of the Canadian Legion Branch at Rocky Mountain House.

Besides her two sons, Dick and Clifford, she is survived by a daughter, Mrs. H. McDougall, living in Calgary and a sister Mrs. Emma Payne of Willow City, North Dakota.

The funeral will take place Thursday in Calgary at 4 p.m. and interment will be in Queen's Park Cemetery.

Spilled Ballots Unnecessary

Many ballots are needlessly spoiled in every provincial election when voters fail to follow a few simple rules at the polling booth.

"The most common mistake made by voters is using an X instead of numbers when marking their ballots," R. A. Anderson, chief electoral officer. "The correct way is to mark 1 beside the first choice, 2 beside the second choice, 3 beside the third choice, and so on until all desired candidates have been voted for."

In this system a person may vote for as few as one candidate or as many as there are on the ballot. In rural areas the single transferable vote is used, whereby there is only one candidate from each political group which wishes to contest a

The Buffalo

The American Bison differs in many ways from the buffalo found in Europe, Asia and Africa. The name "Buffalo" however, has usually been applied to these shaggy birds of the plains since the days when they roamed in countless thousands from Canada to Mexico. Early explorers saw the ground covered with them as far as the eye could reach. Steam boats on rivers were forced to stop because of great herds swimming across and early railway trains were held up for hours while buffalo trotted across the right of way. The Indians

destroyed a few with bows and arrows and used them for food, clothing and shelter. Many perished in blizzards or broke through thin ice and were drowned; but when the white men came with rifles, the real slaughter began.

Bill Cody 1867-17, was one who destroyed many. He served in the Civil War and fought against the Indians in U.S.A. When the Kansas Pacific Railway was being built, he contracted to supply the workmen with meat and, in 18 months, he killed 4000 buffalo. He was called "Buffalo Bill" and organized the great Wild West Show with which he toured Britain and other parts of

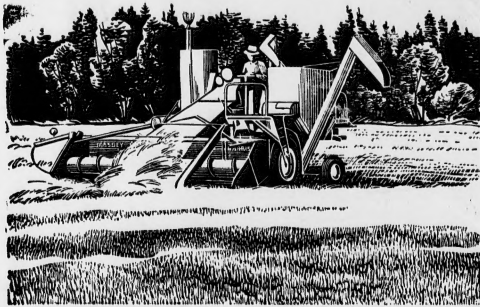

Europe. It was said of him that he lived dangerously, fought bravely and played before Kings and Queens.

During the period of the great slaughter the Texas legislature proposed to adopt measures to save the herds from extinction. Opposition at once appeared by those who wanted to destroy the herds in order to subdue the Indians. General Sheridan stated that if the buffalo disappeared, the prairies would be covered with cattle and the cowboy would succeed the hunter in the onward march of civilization. This proved to be true as great herds of cattle came as the buffalo moved off the range. A story illustrating the way of

living in those days is told about a man named Haldy and his partner, Kate Fisher. Haldy killed a man in a poker game and, as there was no jail, he was locked in a hotel

room. Kate packed her belongings in a bag, secured two fast horses and set fire to the back of the hotel. When everybody in town had run to the fire, Kate overcame the guard

with her six-shooter and succeeded in getting Haldy out to the waiting horse. By the time the fire was out the couple were many miles away.

You're always ready for harvest time with a Massey-Harris Combine

Conditions at harvest time for taking off the crop may be good or bad according to the action of the weather. But when you are mechanized with up-to-date combine equipment you're ready to go when the crop is right in good weather and you can make the most of any favorable conditions during the difficult seasons. Combine harvesting is the easy, low-cost modern way to harvest under normal conditions and in many tough years the combine method has saved the day for farmers.

A modern combine, too, simplifies the harvest labor problem—many farmers handle their crop with little or no extra help at harvest time!

For years Massey-Harris combines have been noted for their outstanding ability—your Massey-Harris local dealer will be glad to give you full details about the latest models.

HERE IS A BETTER DEAL FOR YOU

The Liberal Program

A BETTER DEAL FOR YOU, the local ratepayer

A Liberal government will pay—
50% of the over-all cost of your children's education.
80% of the cost of welfare services.
Double the present grants for your district roads.

A Liberal government will provide—
Interest-free loans for schools and hospitals in your community.

A Liberal government will restore and maintain local independence in municipal affairs.

THIS WILL CUT YOUR TAXES!

**NATURAL RESOURCES—Coal, Oil, Natural Gas,
Forests, Water Power**

A Liberal Government Will—

Provide adequate research facilities to develop additional uses for our coal. Use Alberta's natural resources for the benefit of Albertans.

Give preference to Canadian citizens in leasing oil, gas and mineral rights from the government of Alberta.

Pay a royalty of 2½% to the surface owner on all crown-owned leases.

Force performance on all oil and gas leases and cancel default.

Put a stop to the social credit policy which keeps the price of gasoline and tractor fuel high.

Act immediately to bring the benefits of cheap power and gas to all Alberta citizens.

Consider the export of gas only after it is satisfied that Albertans have been fully protected as to price, supply and economic advantage—and the people have approved this action by plebiscite.

Put a stop to the continued policy of neglect of our forests and streams, including fish and game, and substitute for it a policy of conservation, designed to perpetuate our resources.

Not until the policies are enforced will all Albertans share in the wealth of our natural resources, which is our heritage.

THIS WILL BRING US ALL MORE PROSPERITY!

HIGHWAYS

A Liberal Government Will—
Bring to an end Social Credit policies which have wasted millions of dollars on highway construction.

Build safe—all season—all-weather roads. Build highways that will stay built.

AGRICULTURE

A Liberal Government Will—

Restore to agriculture the prominence it deserves in the functions of government. Provide legislation to help the farmers create and control their marketing agencies.

Restore full co-operation with the federal government to insure the full use of our water resources to expand our irrigable areas and develop industry.

EDUCATION

A Liberal Government Will—
Again emphasize the teaching of reading, writing and arithmetic.

Establish educational facilities to prepare our young men and women to fill important positions in industry which will be created by the policy of development of our natural resources for the benefit of Albertans.

HOUSING

A Liberal government will co-operate with the federal government under the National Housing Act to provide serviced lands at a reasonable cost for house building purposes.

LABOR

A Liberal Government Will—
Bring industries to Alberta, which will give you more and better jobs. Invite representations from and keep the door open to responsible labor leaders at all times.

Appoint a minister with extensive responsibility for labor. Make Alberta the best place in Canada for the working man or woman.

THIS Will Give You More For Your Tax Dollars

WE ARE PROUD OF OUR CANDIDATES!

The men and women who are, running under the Liberal Banner in all parts of the province are the finest group of candidates ever offered to the voting public. They have gained respect and admiration in their community. We are proud to have them supporting the Liberal program. Our party program is sound, practical and of benefit to all Albertans. Our candidates are men and women capable of carrying it out. Vote for the best candidate in your constituency.

Town & District

Mrs. B. Buhr left last week for a visit with her parents at the coast. She will go to California where she will spend several months before returning to town.

The annual Gleichen picnic is to be held at Business Park—east end next Sunday, Aug. 3rd, starting at 2:30 p.m. Donald Hutchison who is secretary of the organization, invites all Gleichenites of the town and district who can find it convenient to attend to be present. You are requested to bring a lunch basket. Coffee, cream and sugar will be provided.

Mr. and Mrs. R. Lyons and daughters of Turner Valley are visiting at the home of the latter's parents Mr. and Mrs. E. W. Taylor.

Miss Dorothy Brown of Arrowwood has joined the nursing staff of the Blackfoot Indian Hospital.

Stewart Hayes who was injured when he fell several feet while constructing a building at Arrowwood several weeks ago, has been released from the Vulcan hospital and is at his home.

Mr. J. J. Robinson was taken ill last week and is at present in the hospital.

Mrs. Cunningham has been confined to a hospital in Calgary for the past week. She expects to be home shortly.

Gordon Boggs wife and family left a week ago for a holiday in the western States.

Ted James returned Friday after spending some days at the Boy Scout training camp at Sylvan Lake. Ted says he had a wonderful time and the week passed all too fast.

A good sized crowd attended the Recreation Centre Saturday evening spending some time at the other events. Last year the members of the Recreation Centre put on dances every Saturday night and there was always a good attendance. So from last year's and this year's experience

it demonstrates people like somewhere to go and amuse themselves on Saturday nights.

Last week the town engaged the municipal grader for a couple of days to grade some of the streets. The streets that were graded look much better for the treatment and are much more pleasant when driving a car over them. Before grading could start on the main street some ten or fifteen cars had to be moved. They were all locked and the owners were away. In every case of the locked cars a door was left unlocked or a window wide open or down far enough so that entry could be made to shift a gear and start the car as it was towed away.

Mrs. E. W. Taylor and son Edgar are moving to coast where they will in future reside. Mr. Taylor will follow some time later. During the past several weeks Mrs. Taylor has been entertained by the Eastern star, Mrs. J. A. McArthur, Women's Auxiliary to the Canadian Legion, and the Women's Auxiliary of the U.P. and Church. Mr. Taylor by the Masons which organization he has been a member for many years. Edgar was entertained by the school and is the United Church.

Mr. and Mrs. W. Pugh accompanied by Mr. and Mrs. A. Horn spent the weekend in Banff and Lake Louise.

Fred Williams who has been living at Gibson Landing since he left here in 1935 paid a visit to town last week. He was accompanied by his wife who is visiting her brothers Elmer and Archie Crum. Mr. Williams says it is seven years since he was here and was very happy to meet his old friends. He is still much interested.

In all. He reports that his father celebrated his 81st birthday on July 21st and despite his years is very spry and active. His sister Primrose was enjoying the best of health.

Mr. and Mrs. Robert MacArthur, who paid a surprise visit to Gleichen made a tour of B. C. for a few days last week. At Kamloops they visited Mr. and Mrs. Stabback's daughter, Mrs. Henderson. In Kamloops they also saw Mr. and Mrs. Glen House of Arrowwood. Mrs. House is in the hospital here in a serious condition with a broken hip.

G. W. Evans and wife accompanied by Bob Stabback and wife of Calgary made a tour of B. C. for a few days last week. At Kamloops they visited Mr. and Mrs. Stabback's daughter, Mrs. Henderson. In Kamloops they also saw Mr. and Mrs. Glen House of Arrowwood. Mrs. House is in the hospital here in a serious condition with a broken hip.

CARD OF THANKS

Mr. and Mrs. W. Cook wish to thank all their kind friends for the beautiful gifts, cards, and good wishes received on the occasion of their 50th wedding anniversary.

A Presbyterian minister was preaching a sermon under the auspices of Saint Paul's advice that the savage, male should curb his unruly passions, if unable to do so—be divorced, marriage, stating, "It is better to marry than to burn." Most of his flock went to sleep during the sermon. They left the Kirk after the service, the minister congratulated Mac on the attention that he had paid to the sermon as further asked Mac how he enjoyed it. "Fine," replied Mac, "Especially when you referred to St. Paul and his admonition to us all about the weakness of the flesh. It reminded me immediately of where I had left my umbrella."

WEATHER RECORDS

No subject of conversation is more widely used than that of the weather. Nothing brings more joy—or brings more grief—than the weather. Nothing affects the growth of crops to such an extent.

It has been said that little, if anything, can be done about the weather. In a large measure this is true. However, it is possible to collect much useful information about the weather and to apply this knowledge to crop production.

All the way across the Dominion, the Meteorological Division of the Department of Transport has over 800 stations at which precipitation is measured. At more than 700 of these places maximum and minimum temperature readings are also taken. In a country so vast as Canada, such observation points in many instances are few and far between, so in the crop growing areas of the country measurements of precipitation and, to a limited extent, of temperature are made at numerous locations.

The weather information obtained from all sources is used in a great variety of ways besides supplying the answers to such questions as "how cold did it get last night" or "how much rain did we have in the last storm."

By studying the figures obtained from the various districts it is possible to make estimates of crop yields, predict insect damage, decide on the extent of summer-fallowing that should be planned, determine the suitability of a given area to a particular kind of crop.

Weather records are being used by irrigation investigation section of the Lethbridge Experimental Station in determining irrigation requirements of crops for any given area. In this connection temperature records play an important role. Once the irrigation requirements for one district have been determined by experimental methods it is possible, through the use of weather records, to work out formulae which will indicate the irrigation requirements of other districts.

If little can be done about the weather at least there are many things that can be done with it, and your experimental station is but one of many organizations making good use of weather records.

We recently heard that a certain chap who came home very late and very untidy had a brilliant idea. He stopped in the kitchen and tied together all the pots and pans he could find. Then he proceeded upstairs dragging the kitchenware and muttering constantly, "She'll never hear me in all this racket."

As for a province which boasts the Canadian Rockies, British Columbia has as its motto, "Exploration Without Displacement."

No Better Engineered TRUCK at Any Price!

Let the facts show you why a Chevrolet truck means dollars-and-cents savings!

Size up the four facts at the right-hand side of this page. They lay it on the line—the reasons why a Chevrolet truck cuts down your hauling or delivery costs on any job you want to name.

But there's more to it than that. With all its savings on purchase price and on-the-job costs, a Chevrolet truck is the greatest truck to drive you ever got your hands on. Easier Recirculating Ball Bearing Steering. Clutch smooth and easy. Fast, quiet Synchro-Mesh transmission that eliminates double clutching. Roomy cab with five feet of hip room, ventilated windows, and seats with double-clutch springs. And for increased safety and comfort, Chevrolet trucks offer GM "Shade-Lite" Glass with the exclusive shaded windshield which greatly reduces glare and heat. (Optional at extra cost.)

Chevrolet is first in operating cost per ton mile. See them in our showroom today.

A GENERAL MOTORS VALUE

first in demand in sales

CHEVROLET

MORE PEOPLE BUY CHEVROLET TRUCKS THAN ANY OTHER MAKE!

Fact No. 1

More Truck for Your Money!

Get the price on the Chevrolet truck that's the right size, type and capacity for your work. You get that Chevrolet gives you far more for your money—because it's engineered and built to unsurpassed standards of value.

Fact No. 2

Rock-Bottom Operating Costs!

You can't beat Chevrolet's Valvoline-Head engine for over-all economy. They just keep rolling along. A choice of four time-tested high torque engines to match the load.

Fact No. 3

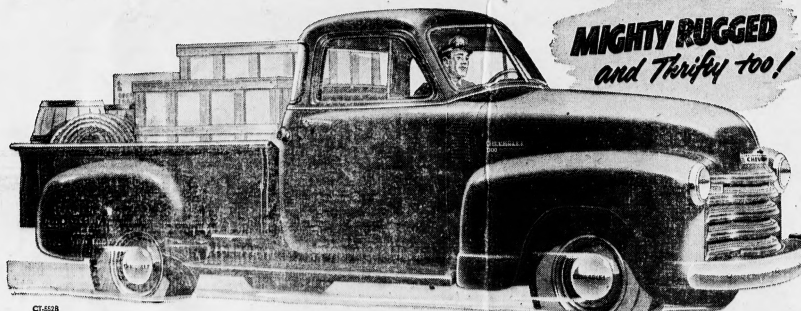

Engineered and Built for Your Loads!

Every Chevrolet truck gets the job done fast and sure—providing the widest selection of body styles as well as chassis for special bodies in wheelbases from 110" to 212".

Fact No. 4

Your Truck Investment is Safer!

When the time comes to trade in an old Chevrolet truck, here's good news: Year after year, used Chevrolet trucks traditionally bring more money, compared to what they cost when they were new. This is confirmed by Chevrolet's wide customer acceptance.

MIGHTY RUGGED and Thrifty too!
